DETAILED ACTION

Summary

On August 11, 2006, an Office Action was sent to the Applicant rejecting claims 1-18. On December 14, 2006, the Applicant responded by amending claims 1-3, 7-8, 15, and 17 and canceling claim 9.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-18 are rejected under 35 U.S.C. 102(e) as being anticipated by Johnson (6,598,029), as set forth in the previous Office Action.

With regard to amended claims 1 and 15, Johnson discloses receiving by the control node information related to current supply and demand conditions on an electric network through a feedback loop (col.6, lines 25-40; col.12, lines 24-28; and col.16, line 65 to col.17, line 5—Provider receives information on supply and demand and feedback reports based on usage) and generating, by the control node, a route plan for routing electricity between the matched buyer and seller while matching loads and resources of the electronic network based on the supply and demand information (col.6, lines 43-50 and col.12, lines 18-24—moderator sorts bid information among delivery destinations).

Art Unit: 3691

Response to Arguments

Applicant's arguments filed December 14, 2006 have been fully considered but they are not persuasive. The Applicant argues that the limitations incorporated into independent claim 1, which were limitations original claims 8 and 9, are not disclosed by Johnson. In response, the limitation "routing electricity between the matched buyer and seller while matching loads and resources of the electric network based on the supply and demand information" was not in either claim 8 or 9.

With regard to the limitation "receiving by the control node information related to current supply and demand conditions on an electric network through a feedback loop", which was incorporated into independent claim 1, Johnson discloses the Provider receives information on supply and demand and feedback reports based on usage (col.6, lines 25-40; col.12, lines 24-28; and col.16, line 65 to col.17, line 5). With regard to the limitation "generating, by the control node, a route plan for routing electricity between the matched buyer and seller while matching loads and resources of the electric network based on the supply and demand information", which was also incorporated into claim 1, Johnson discloses a moderator sorting bid information among delivery destinations (col.6, lines 43-50 and col.12, lines 18-24).

The Applicant argues that Johnson does not disclose how the provider determines the changes in the demand for energy. In response, Johnson discloses that the provider has reports pertaining to supply and demand for energy at different times during the day and at different destinations (col.6, lines 30-42).

Conclusion

Art Unit: 3691

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Page 4

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lalita M. Hamilton whose telephone number is (571) 272-6743. The examiner can normally be reached on Tuesday-Thursday (6:30-2:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kalinowski Alexander can be reached on (571) 272-6771. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
